## **Day 1 – Saturday 24<sup>th</sup> June**

The first day of the 16-day long Euro Trip was also the day of arrival for the participants. All of them have been excited for days to finally start their journey. Bert and Stéphane welcomed the students at the main station in Munich. Many of the exchange students already knew each other from their home country and so it seemed a bit like a hearty reunion with well-known friends. Since some of the students were accompanied by their host family it was time to say goodbye for them, which is why a lot of tears have been shed. However, after calming down, the journey could begin and everybody took the underground to go to the hostel. Afterwards, everyone went downtown to start the trip with an interactive quiz at the Stachus that tested the previous knowledge of the students on Bavaria and Munich. It turned out that some of them already knew a lot about the region. This was followed by a quick historical excursion concerning the development of the city as well as some cultural explanations. At this point, the Bavarian dialect and the language in Munich was addressed as well. Furthermore, the relationship of Bavaria to the rest of Germany and the part Austria is playing was discussed. On the way through the old town, the group went to the Frauenkirche and listened to the legend of the Teufelstritt, which is very famous in Munich. Afterwards, they went further to the Marktplatz. Here, the group took a short break at the tradition-steeped trade office of Dallmayr. Next stop was the Hofbräuhaus. Over here, everyone took many pictures of the huge beer mugs and the magnificent ceiling.
