Language and Science Summer Camp

Duration: 3 weeks Location: Hamburg and Berlin Course Fee: 2,225 € Date: 9th July – 29th July 2018

Language and Science Summer Camp in Hamburg and Berlin

Hamburg is the second largest town in Germany and it is a harbour city with a multicultural atmosphere. With its various parks, canals, attractions, shopping facilities and activities, the inhabitants of Hamburg are justifiably proud of "Germany's most beautiful city". We would like to practice German with you and show you the environment and most famous sights over here both intensively and with pleasure. We will also go on excursions to Lüneburg and Lübeck. The youth education centre is located quiet, yet central. Despite the intensive language course with focus on scientific vocabulary, you will have the once in a lifetime opportunity to work on your own research project in the center of science and development Hamburg.

The last week will be spend in Berlin. While continuing the German language courses, there will also be enough time to explore the colorful capital city, its most famous sights and the culture of the German people.

About Us

Exchange, Education and Communication all in a global and intercultural context – it is with these in mind that aubiko was founded. Since 2001 the members of our team have gathered extensive experience at universities and other educational organizations not only in Germany, but also the USA, Russia, China, Denmark, Poland, Ukraine and the Czech Republic. We possess the relevant know-how to gauge and address the needs not only of international students, but also internationally-oriented universities.

Our areas of expertise include:

- The teaching of the German language at all levels (from basic to academic), including preparatory courses for university entrance level examinations (for example TestDaF)
- Student advisory services in relation to the application process, course requirement and German academic standards.
- Development of intercultural exchange through cross-border academic and cultural projects between universities.
- Experience with international high-school exchange programs.
- University internationalisation projects.
- Delivery of intercultural competencies for global and internationally active companies and organisations through intercultural training seminars and coaching sessions.
- Comprehensive and constantly growing global network of educational partners.
